

Vulnerable Support
Charitable Trust

Vulnerable Support Charitable Trust

Position Description

The Trust was started in 2016 through a passion to make changes to the lives of children living in poverty and vulnerable youth in our city.

Our mission is to amplify the good and support the vulnerable.

Take 10's purpose is to support the reduction of alcohol related harm and alleviate demands on emergency services and local hosts by providing a centralised base for vulnerable youth.

Do Some Good's purpose is to feed children in need, create connections between New Zealand's business community and kiwi kids living in hardship.

Take 10 Team Member

Role Description:

Our model for Take 10 is preventative. The focus is to provide support to our visitors to prevent any harm from occurring. We offer our visitors water, phone charging stations and help with any travel or medical assistance. We are approachable, positive, and non-judgemental. We want to positively influence the drinking culture in Wellington.

As a team member your focus will be on welcoming our visitors and interacting with them. You will create a positive and enjoyable night out for people and support anyone who is feeling or acting vulnerable. Your night will vary from positive interactions to potentially difficult situations where you will be called upon to take appropriate actions and make decisions with the support of your team leader. You will also help with the pack in and pack out of the mobile unit at the beginning and end of the night. Health and safety is paramount to the running of Take 10 to keep our team and visitors safe, this is at the forefront of what we do.

Volunteering at Take 10 gives you work experience, introduces you to 'real life on the street' scenarios and it instils a sense of safety and of belonging to a community. It's a place where peers support peers.
